

Welcome to Michigan's Online SFI training 2.0

We have pulled together content to form **two course options** for your training. The options include a training that is 4 hours in length and another that is 8 hours worth of training. You first need to decide what training level you need for this year. We have streamlined the process of watching the videos and taking the quizzes **but you cannot switch between 4 and 8 hr courses!**

Make sure to read all the instructions associated with each of the Step 1,2,3... headings! Scroll Down!

A few big announcements you will want to note:

- You need to only use 1 device and 1 browser for the entire course.
- You can start and stop and then restart at the beginning of the module segment you left off on **as long as you use the same device and browser** (example - office desktop and google Chrome browser).
- **Do not Use Windows Explorer** (does not work with D2L Courses).
- We have embedded the Quizzes making it much more streamlined and Easier to use (passing grade is 80%).
- When you submit a quiz and get a grade you have to wait 10 to 15 minutes for the grade to register in the gradebook.
- **8 hr course users** need to wait 10-15 minutes, and the second 4 hrs of training will appear as active in the table of contents.
- After passing grades are registered we automatically get an email notification
